Summary

Full Stack Web Developer experienced with HTML/CSS/JavaScript.

Previously a self-employed tradesman with eight years of experience coordinating and leading jobsites, handling client satisfaction/experience, and leading by example.

Formerly an English Major at the University of Toledo, where my work was often used as examples for my classmates. I take great pride in being able to elegantly articulate points of conversation, and having top-notch people skills.

Experience

Self Employed Tradesman

Self-employed

Working in the skilled trades exposed me to leadership and responsibilities I would never have learned anywhere else. I learned professionalism interacting with clients as well as industry contacts, how to keep a schedule and meet expectations and deadlines, and instilled a pride in my craftsmanship and a work ethic in myself that drives me to this day.

Education

The Ohio State University

Full Stack Web Development

2021 - 2021

Certificate in Full Stack Web Development with experience and knowledge of HTML, CSS, JavaScript, MySQL, MongoDB, and React.

The University of Toledo

English Language and Literature/Letters

2010 - 2010

While I didn't finish my degree, my work at UT helped mold and polish my vocabulary. I excel at writing, both creatively and structurally.

Licenses & Certifications

Full-Stack Coding - The Ohio State University College of Engineering

Skills
